

THE NAME GAME

11/3/26

We have a new idea for a member participation night, called "The Name Game".

Each participating member uses their first (or if they prefer last) initial and takes five photos of subjects or themes that can be described by that letter, preferably all five using the same word/phrase and trying to be creative or artistic, or humorous, etc.

For example, If your chosen initial is the letter "S", you could take five photographs of soup cans, or stop signs, or make some "slow shutter" long exposure pictures... Other themes might include "scenic byways", "slippery surfaces", "sandy beaches", "silly faces", etc. There are endless possibilities.

Once you have your five photos, you'll upload them to PhotoContestPro and we'll view everyone's photos at our Zoom meeting and you can give brief commentary on your chosen theme and your photos.

Try to make new photographs rather than digging through your existing archives, as part of the fun is setting yourself a challenge and looking for scenes that match it.
